## Change Community Learning Hub

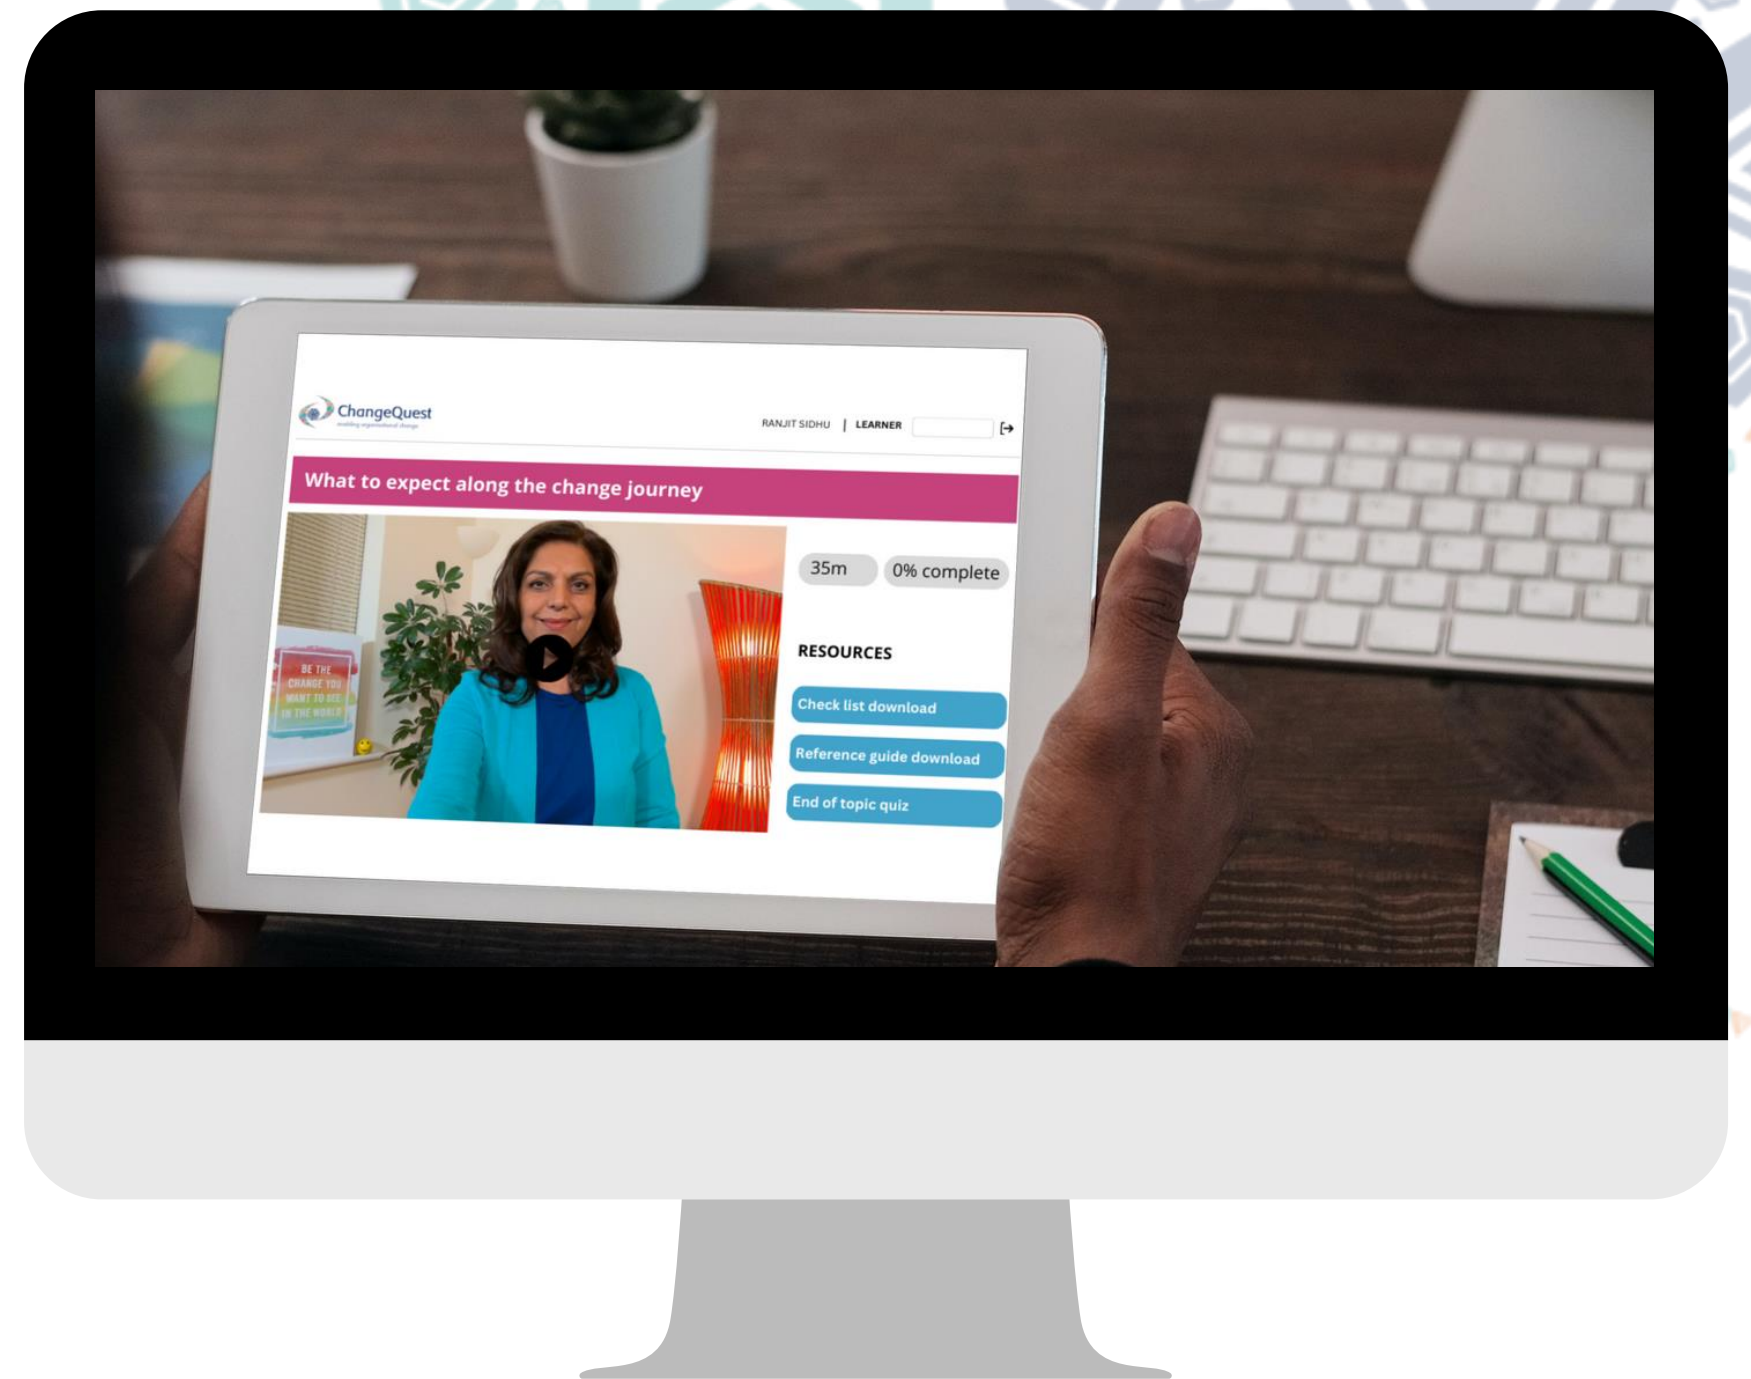

AUTHORED BY  
Ranjit Sidhu

# Navigate change with ease

The 'Change Community Learning Hub' offers an affordable and scalable solution to enhance change adoption and success rates.

To achieve transformation and successfully deal with constant and fast-paced change, the ability to adapt and enable change needs to become the norm for everyone. It is imperative for change to be embraced so that it becomes a natural part of daily work.

# Cost-effective solution

With high-volumes of change and transformation that can have far-reaching impact across the organisation, the Hub offers a cost-effective means for providing accessible training and resources to all those impacted, as and when they need it.

# Make change doable

The platform is designed to provide teams with practical tools and resources so they can build the skills and confidence to future-proof themselves and deal with any change that comes their way.

# Integrate change with delivery

We set ourselves apart by specialising in aligning change management with project management to get them working in harmony.

This distinct advantage means we can help organisations to deliver efficiently whilst bringing their people along with them, enabling them to adapt at speed, and amplify the benefits that can be achieved.

## Support yourself through change

Is for anyone impacted by change, to help them understand the typical challenges through the change journey and how they can prepare for and be proactive in making change happen.

## Manage others through change

Valuable guidance for managers to support teams through the emotional ups and downs of change, helping them shift from overwhelm and resistance to motivated to embrace change.

## Lead others through change

A leader's role is vital in shaping, directing and supporting change. This covers how to build momentum for change and cultivate the right culture for successful transformation and benefits realisation.

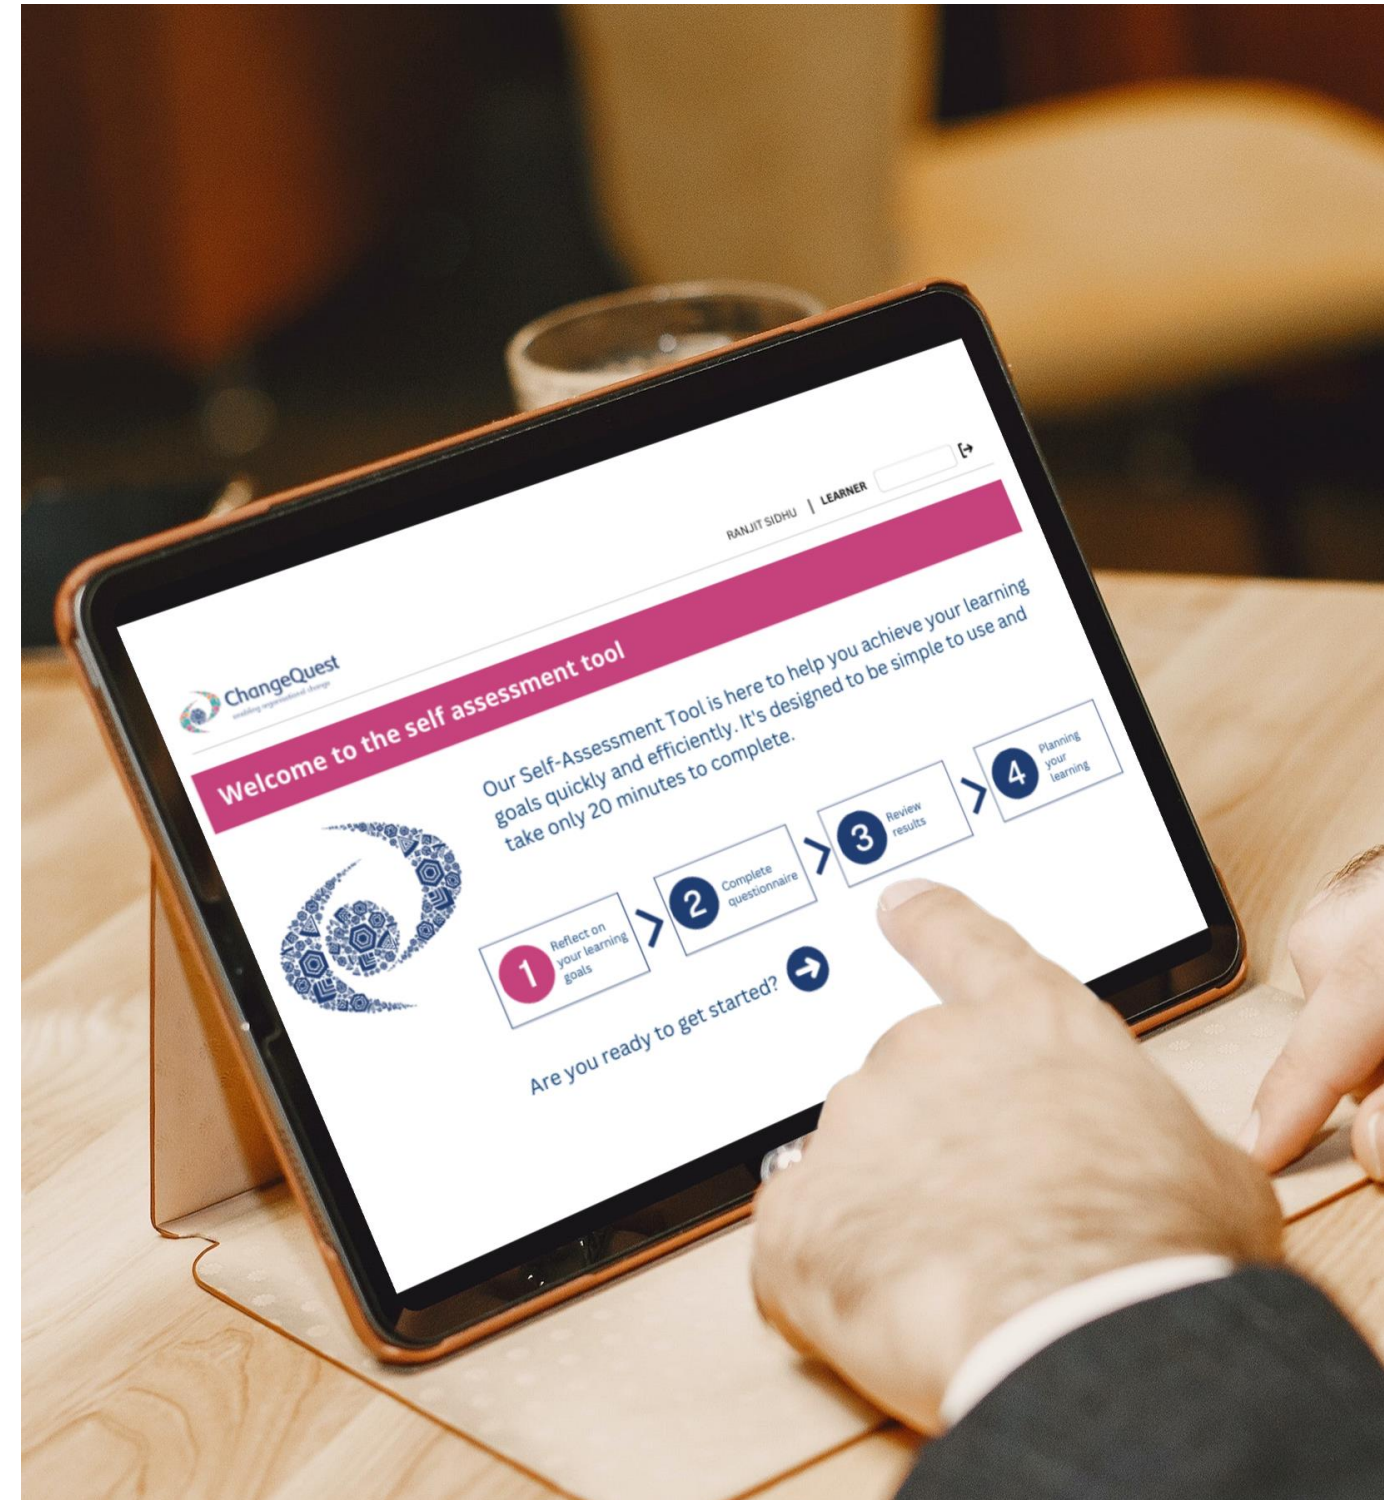

## Align delivery with change

Key guidance for aligning project plans and change management activity to ensure efficient delivery and smooth transition, by having people ready and willing to adopt what has been delivered.

# Enable self-directed learning

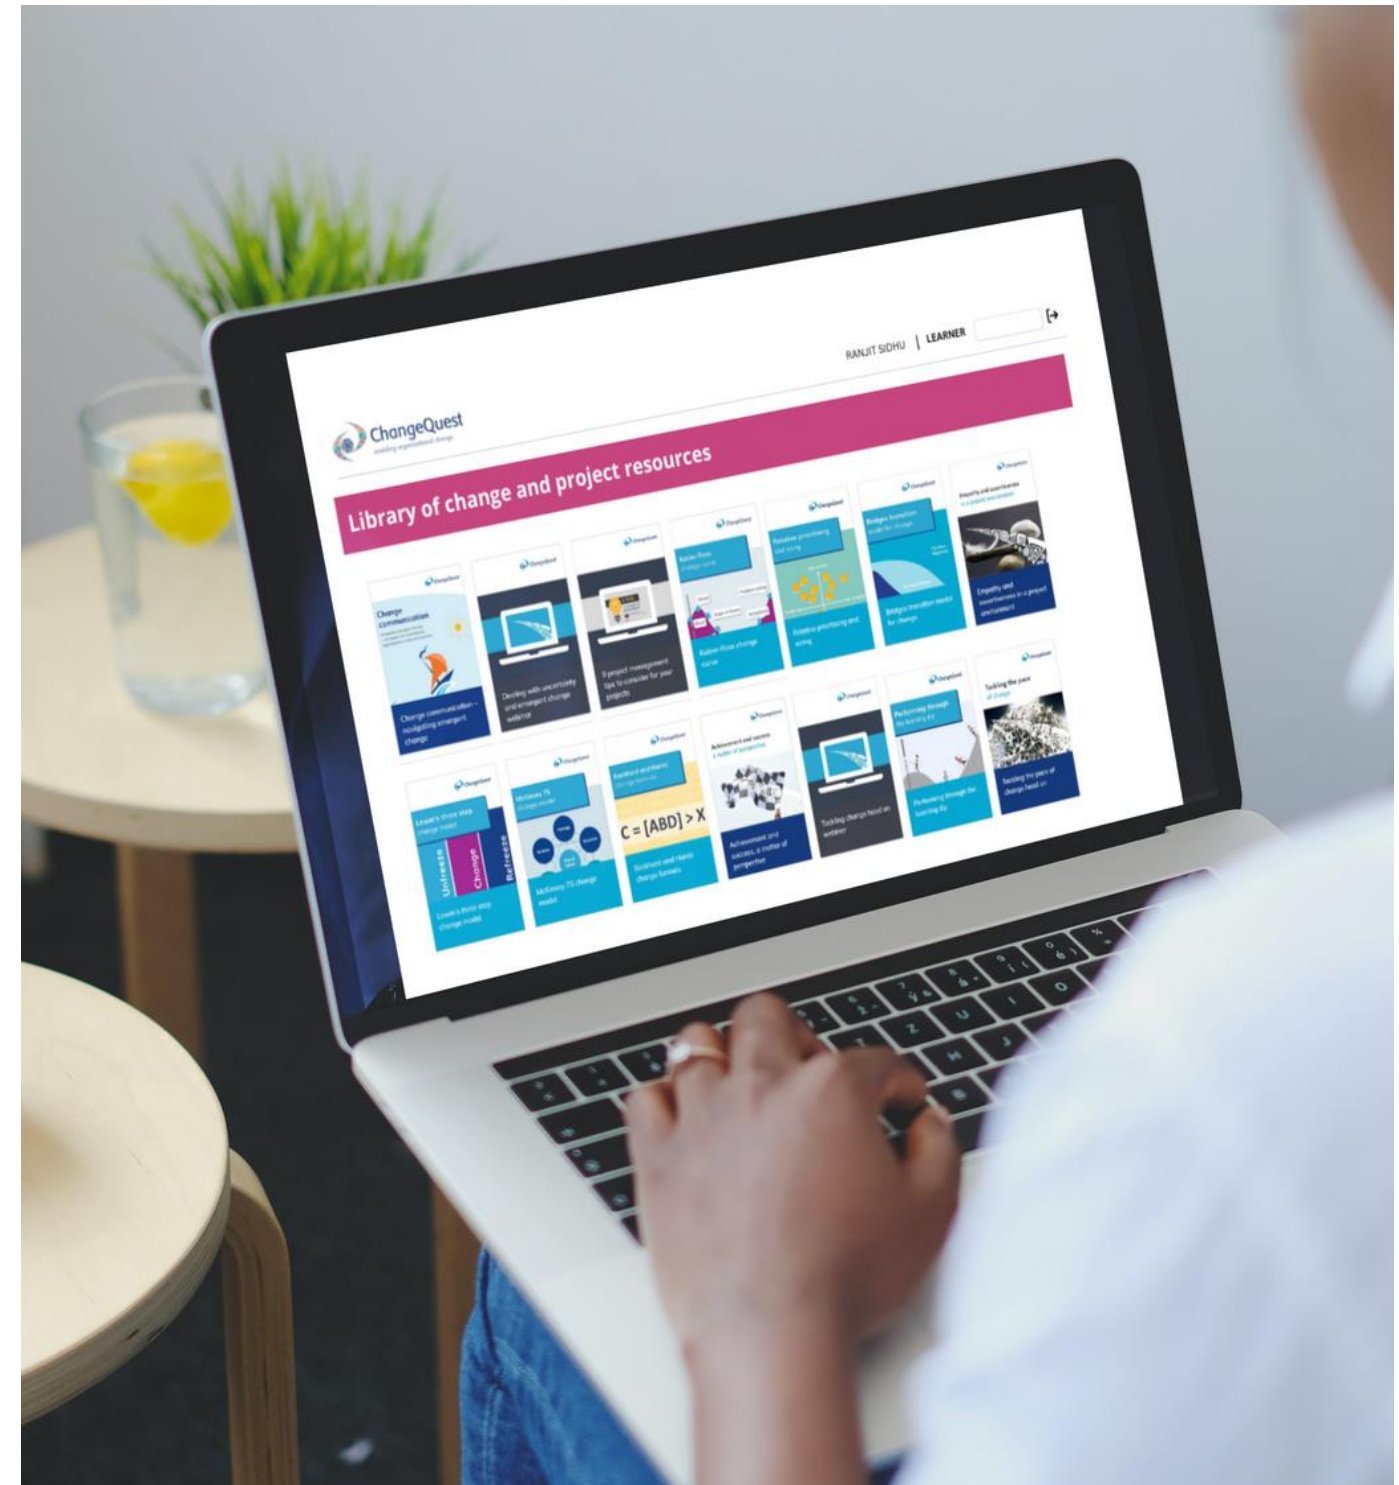

The journey starts off with an invitation to undertake a short self-reflection questionnaire to help individuals identify their own development path. We encourage individuals to take this survey as a way of getting a snapshot of where they may want to focus their time and to help them to track progress.

# Build capability and confidence

From best practice, short bite-sized learning to templates, quizzes, resources and practical tools, the Hub is a one-stop-shop for everything related to change management.

# Features of the Hub

The Hub's comprehensive and user-friendly platform, empowers individuals within organisations to effectively manage change, enhance their change capabilities, and achieve successful change outcomes.

Change management resources

Interactive learning Modules

Customisable change templates

Discussion and knowledge sharing

Progress tracking and analytics

Mobile-friendly and on-demand access

# Return on investment

By providing a central repository of knowledge and resources, employees have access to consistent and up-to-date information on change management methodologies, tools, and techniques.

This consistency promotes alignment and reduces the risk of confusion or conflicting approaches to change management, resulting in smoother and more successful change initiatives.

Increased change adoption

Enhanced employee engagement

Consistent change practices

Continuous learning and skill development

Cost savings on external training

Increased change capability
